The History of Round Grove Products

In 2012, while installing an outdoor kitchen and fireplace, Scott Widmer realized there was an opportunity to reduce assembly and installation time using pre-fab hardscaping features, such as cabinets and fireplaces. He started making panelized, collapsible outdoor kitchen cabinets and storage sheds. Over the next two years, Scott was relentlessly seeking customer feedback to refine design features and develop product options. The products installed quicker, eliminated the logistics of materials and skilled labor compared to other fireplace kits, were easier to customize, and lowered total installation cost.

Round Grove manufactured the first ready-to-finish fireplace model in 2013. Brick oven production began in 2015. The Kiva-Mezzo combination unit (U.S. Patent No. D861410) was created in 2015 and available for sale the following year. New sizes, new features, and new variations continue to be introduced each year.

Distribution was mainly in the Great Lakes region from 2012 to 2015, but once Round Grove launched a website, customers from all over the nation took interest. The first international sale was in 2017. From the Widmer's garage in 2012, production moved into a local Amish workshop without electricity, Wi-Fi, or running water. As the workforce grew, production moved to our present facility with all the utilities.

Round Grove strives to create high-quality products that reduce assembly and installation costs, provide a broad array of customization, and are generally available in two to three weeks' lead time. New products are developed relying on customer input and feedback. Today, Round Grove Products is represented by over 100 dealers throughout the USA and continuing to expand due to the commitment of owners Scott and Bonnie Widmer to premium customer service, customization of features, and quick turnaround.

COMBINATION UNITS

Make the focal point of your outdoor entertainment space a fireplace and a brick oven unit. This unique prefabricated combination is only available from Round Grove Products.*
The fireplace and brick oven are two independent combustion chambers with separate flues. You can enjoy a fire in the fireplace or you can enjoy sweet and savory goodness roasting in the brick oven or you can do both simultaneously.

**US Patent No. D861410 & 10,480,793*

Part #	Outdoor Fireplace & Brick Oven Combo Units	U.S. Patent Nos. D861410 & 10,480,793 Canadian Patent No. 180048	MSRP

- 18 ga. galvanized steel construction
- Pre-scratch-coated and ready-to-finish
- Fire brick installed on the interior
- Chimney cap included (not shown)
- Brick oven in-door thermometer included
- Hinged cast iron door and pizza peel included

Raised hearth sold separately

CU2200

Fiesta Brick Oven over Mini Firebox
Weighs about 2100#
DIMENSIONS:
39"W x 42"D x 109"H
21" x 20.5" brick oven

CU2400

Fiesta Brick Oven over Poco Firebox
Weighs about 2400#
DIMENSIONS:
48"W x 42"D x 120"H
29" x 20.5" brick oven

CU2600

Fiesta Brick Oven over Mezzo Firebox
Weighs about 2700#
DIMENSIONS:
55"W x 42"D x 120"H
37" x 20.5" brick oven

CU2800

Fiesta Brick Oven over Largo Firebox
Weighs about 3100#
DIMENSIONS:
63"W x 42"D x 120"H
45" x 20.5" brick oven

Part #	Outdoor Fireplace & Brick Oven Combo Units	U.S. Patent Nos. D861410 & 10,480,793 Canadian Patent No. 180048	MSRP

- 18 ga. galvanized steel construction
- Pre-scratch-coated and ready-to-finish
- Fire brick installed on the interior
- Chimney cap included (not shown)
- Brick oven in-door thermometer included
- Brick oven hinged cast iron door and pizza peel included

CU1600

Kiva Brick Oven over Mezzo Firebox
Weighs about 2200#
DIMENSIONS:
55"W x 30"D x 120"H
18" x 20.5" brick oven

CU1800

Kiva Brick Oven over Largo Firebox
Weighs about 2300#
DIMENSIONS:
63"W x 29"D x 120"H
18" x 20.5" brick oven

Our outdoor fireplaces and combination units are suitable for use with vented gas log systems.

Part #	Outdoor Baha Fireplace & Brick Oven Combo Units U.S. Patent #D861410 & 10,480,793	MSRP

- 18 ga. galvanized steel construction
- Pre-scratch-coated and ready-to-finish
- Fire brick installed on the interior
- Chimney cap included
- Gas Rough-in and Key Valve included
- Brick oven in-door thermometer included
- Hinged cast iron door and pizza peel included
- Brick oven set-back (creates 12" deep shelf below the brick oven door)

**Optional pass-thru fireplace*

CU3100

Baha Brick Oven over Pokeeto Firebox
Weighs about 1600#
DIMENSIONS:
30"W x 42"D x 84"H
18" x 20.5" brick oven

CU3200

Baha Brick Oven over Mini Firebox
Weighs about 1800#
DIMENSIONS:
39"W x 42"D x 109"H
21" x 20.5" brick oven

CU3400

Baha Brick Oven over Poco Firebox
Weighs about 2000#
DIMENSIONS:
48"W x 42"D x 120"H
29" x 20.5" brick oven

CU3600

Baha Brick Oven over Mezzo Firebox
Weighs about 2100#
DIMENSIONS:
55"W x 42"D x 120"H
37" x 20.5" brick oven

CU3800

Baha Brick Oven over Largo Firebox
Weighs about 2400#
DIMENSIONS:
63"W x 42"D x 120"H
45" x 20.5" brick oven

Our outdoor fireplaces and combination units are suitable for use with vented gas log systems.

The Baha combination unit features a wood-burning brick oven above a vent-free gas fire feature in the lower firebox. The key valve and gas line is included in the price. The brick oven is the same size as the Fiesta model. The lower firebox is built to accept either a linear burner with colorful glass beads or one of our distinct gas log species. U.S. Patent No. D861410.

Part #	Outdoor Qubo Combination Unit	Call for Pricing

The Qubo combination unit mashes stock fireplace and brick oven together as a side-by-side combo. A side-by-side combo permits more customization and more options. Customize your Qubo combination unit by selecting the specific fireplace size and brick oven size that will fit within your overall width. Overall width is determined by the specific sizes you select. Overall price depends on the sizes and options you select. It is a super-simple way of combining any size or model in the Round Grove universe of products, but it is entirely appropriate to contact Round Grove Products directly if you have any questions.

UNFINISHED QUBO Model

FINISHED QUBO Model

Qubo combination units can be configured to include grill islands or seat walls--truly any combination of Round Grove's features--to create a unique solution for each client. Above is shown a brick oven with wood storage and a fireplace side-by-side combination unit. Below is shown a grill island combined with a gas-burning fireplace and a seat wall.

PRE-FINISHED PRODUCTS

Round Grove Products offers pre-finished products using Casa di Sassi or Prestige Stone Products veneers. Now your fire feature can be delivered and set into place with a minimum amount of time required to be completely finished and ready to use!! Here are some examples of finishes customers have specified:

Casa di Sassi

Prestige Stone Products

70/30 mix of Prestige Monterey ledgestone and Bluegrass fieldstone with Casa di Sassi Terra chiseled capstones and Brown brick soldier courses

Casa di Sassi Salerno limestone with limestone caps

Prestige Charcoal Weatherledge and Casa di Sassi Rosso brick soldier course and Fumo Flat Wall caps

Prestige Tan Weatherledge and Casa di Sassi Cream Hearthstone

Casa di Sassi Carbone Ledgestone and Fumo Flat Wall caps

Prestige Harvest Weatherledge with Casa di Sassi Cream Chiseled caps

PRE-FINISHED PRODUCTS

ProVia Saginaw Ledgestone with Buff caps and hearthstones

OUTDOOR FIREPLACES

For a more dramatic appearance, choose the XD fireplace option. The fireplace has a 35” deep firebox and the overall presence of the fireplace commands attention on larger properties.

Another visual feature is the firebox opening. Your design can determine an arched, semi-circular, or rectangular firebox opening. Customize the hearth dimensions to fit the scale of your dream entertainment space. Include more details such as a television over the mantel, extend the chimney higher to achieve the draw your site requires, then cap it off with a spark-arresting chimney cap in either black, stainless, or copper.

Round Grove Products makes all of these fireplace elements available to create a custom fireplace that aligns with your specific design…shipped right to your site, ready-to-finish, no assembly, no delays.

Part #	Outdoor Fireplaces	MSRP

- 18 ga. galvanized steel construction
- Raised hearth feature
- Fire brick installed
- Pre-scratch-coated
- Pass-thru option available
- Steel-reinforcement for mantel brackets

OUTDOOR BRICK OVENS

Brick ovens are available in four standard models or any size configured by your imagination. The brick oven is constructed with real firebrick with refractory materials that allow the unit to expand and contract with each fire. The most visible feature is the over-sized cast iron door that is manufactured in the U.S.A. that allows for larger items like roasts, cookie sheets, and cast-iron cook ware. A storage box is included under the brick oven, but you can add wood boxes on either side or design a work space and grill island to accompany the brick oven.

You can align the transition from the base to the chimney to be an important visual feature of your design—angled, squared, monolithic, or tapered. Or do something truly unique and incorporate a custom standing seam metal roof over the brick oven, then cap it off with a spark-arresting chimney cap in black, stainless, or copper.

Round Grove Products makes all of these elements available to create a custom brick oven that aligns with your specific design…shipped right to your site, ready-to-finish, no assembly, no delays.

Part #	Outdoor Brick Ovens	MSRP

- 18 ga. galvanized steel construction
- Pre-scratch-coated and ready-to-finish

GRILL ISLANDS, CABINETS, & WOOD BOXES

The backyard barbeque has been a staple of American life since we first earned leisure time. We have matured from a simple charcoal grill beside the picnic table to an outdoor kitchen complete with a stainless grill, side burner, refrigerator, sink, storage, food prep, and seating for the family. Round Grove makes wood boxes for storing firewood, grill islands for any outdoor kitchen design, and bar height cabinets for dining and entertainment.

Round Grove Products makes all of these elements available to create an entirely unique and custom outdoor kitchen that aligns with your specific design…shipped right to your site, ready-to-finish, no assembly, no delays.

Part #	Hardscaping Features	Call for Pricing

At Round Grove Products, we can build anything to make the time you spend at the jobsite as productive and effective as possible. We are here to help you succeed with fireplaces, combo units, outdoor kitchens, or even smaller hardscaping features such as seat walls, columns, or mailbox surrounds. Hardscaping features by Round Grove Products are constructed from 18 gauge galvanized steel just like our fireplaces and combo units. We build to your design specification. We have built seat walls with angled back rests, straight back rests, or no back rests. Columns can be standalone or connected to the end of an outdoor kitchen cabinet or to the end of a seat wall section. Mailbox surrounds are really an extended column design with a mailbox rough-in about 41-45 inches above grade (mailbox not supplied). Give us a drawing or a text with your requirements, and we can email you a 3D drawing in as little as 24 hours.
